Personnel

OSHA BLOODBORNE PATHOGENS

Adrian Public Schools will provide to all employees, appropriate instruction and protection needed to make their work environment as safe as possible. To ensure compliance with OSHA Bloodborne Pathogens Standard (1910.1030), the District shall make available at all work sites the Exposure Control Plan. In addition, the Superintendent or designee shall ensure the following:

- Annual, updated training and information to all employees
- Provide employees determined to be at risk with the necessary personal protective equipment
- Provide employees with the opportunity to receive the Hepatitis B vaccination that are determined to be at risk
- Post-exposure reporting, evaluation and follow-up
- Properly label and dispose of biohazardous waste

All employee job classifications are determined to have a potential for occupational exposure.

Policy: Board Action
