State Board of Education Home Language Survey - Updated November 16, 2007  In accordance with State and Federal Programs
CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. A student should receive immediate medical attention if after a bump, blow, or jolt to the head or body he/she exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

WHAT SHOULD YOU DO IF YOU THINK YOUR CHILD HAS A CONCUSSION?

1. If you suspect that a student has a concussion, remove the student/athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the student out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says he/she is symptom-free and it's okay to return to play.

2. Rest is key to helping a student recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, and playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.

3. Remember: Concussions affect people differently. While most students with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

WHY SHOULD A STUDENT REPORT THEIR SYMPTOMS?

If a student has a concussion, his/her brain needs time to heal. While a student's brain is still healing, he/she is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young children can result in brain swelling or permanent damage to their brain. They can even be fatal.

Dear Parent/Guardian:

All school districts in Michigan are required to report student data by race and ethnicity categories set by the U.S. Department of Education. Race and ethnicity data is collected utilizing a two-part question format. This allows individuals to more accurately identify themselves given the increased diversity of our nation.

These reports help keep track of changes in student enrollment and ensure that all students receive the educational programs and services to which they are entitled.

If we do not receive a response from you, an employee of the school district will be required to provide this information based on observations. Federal regulations do not permit school districts to leave the questions blank.

Consent for Disclosure of Immunization Information to Local and State Health Departments

Immunizations are an important part of keeping our children healthy. Schools and State and Local health departments must monitor immunization levels to ensure that all communities are protected from potentially life-threatening diseases and, if necessary, respond promptly to an emerging public health threat. It is important that disease threats be minimized through the monitoring of students being immunized.

Sharing immunization and personally identifiable information including the students name, Date of Birth, gender, and address with local and state health departments will help to keep your child safe from vaccine preventable diseases. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, requires written parental consent before personally identifiable information from your child’s education records is disclosed to the health department. If your child is 18 or over, he or she is an “eligible student” and must provide consent for disclosures of information from his or her education records.

You may withdraw your consent to share this information in writing at any time.

I understand this information will be used to improve the quality and timeliness of immunization services and to help schools comply with Michigan Law.
