

Dear APS Head Start Families,

Today we received notification that a positive COVID-19 case has impacted one of our Drager Head Start Classrooms. We have been and will continue to work in partnership with the Lenawee County Health Department during this time. In consultation with the Lenawee County Health Department we will continue to provide instruction to our students in accordance with our approved COVID-19 Response/Re-Opening Plan.

At this time no staff or students have been identified as close contacts of the positive COVID-19 individual, who has not been on site at the Drager Early Education Center since Monday October 26th.

**Face-to-Face instruction will continue across the program at this time, except in Drager 100 which will remain virtual until Tuesday November 17th, 2020.**

Questions can be directed to the Health Department at: 517-264-5226 Option 5.

Be safe and Go Maples!

David Bull

APS Head Start Director
